3 SIGNIFICANT EVENTS

3.1 Changes in major financial data and financial indicators of the Company during the reporting period and the reasons

For the first three quarters of 2017, the global economy recovered moderately and growth has resumed in international trade, with economies in the United States and the Eurozone generally recovering and the growth of some regional markets in emerging economies improving. However, global economic and trading activities still faced various risks and uncertainties as affected by trade protectionism and other factors. Overall, the Chinese economy presented stable and favourable momentum with significant results achieved in the supply-side reform. The structural changes from old to new driving forces for economic growth have been accelerating and the economic development has gradually achieved enhanced stability and sustainability. By virtue of the favourable domestic and overseas macroeconomic conditions, for the period from January to September 2017, the Group recorded revenue of RMB53,963 million (the corresponding period of last year: RMB34,983 million), representing a year-on-year increase of 54.26%; net profit attributable to shareholders and other equity holders of the parent company of RMB1,309 million (the corresponding period of last year: loss of RMB190 million), turning the loss into profit year-on-year; and basic earnings per share of RMB0.4187 per share (the corresponding period of last year: RMB-0.0898 per share), turning the loss into profit year-on-year.

For the first three quarters of 2017, global trade continued to recover, and growth in shipping volume has resulted in increased demand for containers, with customers generally increasing purchasing volumes of new containers so as to cope with such short supply. With the successive completion of upgrade of water-based paint of production lines in each factory in the second quarter, production of containers began to escalate and recover, gradually alleviating the shortage in market supply. For the period from January to September 2017, the container manufacturing business of the Group recorded sales revenue of RMB18,029 million (the corresponding period of last year: RMB7,836 million), representing a year-on-year increase of 130.09%; the total sales of dry containers reached 969,300 TEUs (the corresponding period of last year: 419,000 TEUs), representing a year-on-year increase of 131.34%; and the total sales of reefer containers reached 67,300 TEUs (the corresponding period of last year: 45,300 TEUs), representing a year-on-year increase of 48.57%.

For the first three quarters of 2017, due to the continued effect of the new policy GB1589-2016, and under the influence of two factors including the national environmental protection and the stringent policy on overloading and the supply chain, demand for semi-trailer replacements for transportation has drastically propelled. Meanwhile, domestic macroeconomic conditions have been stabilizing, more infrastructure projects have commenced, which boosted the growth of demand for intelligent urban muck trucks. In the overseas market, business performance in the North American market remained stable despite the overall decline in demand. European businesses were gradually buoyant following the progressive economic recovery of the market. Through pursuing opportunities arising from segmented markets and products, emerging markets rebounded. For the period from January to September 2017, the sales revenue of the road transportation vehicle business of the Group was RMB14,655 million (the corresponding period of last year: RMB10,467 million), representing a year-on-year increase of 40.01%.

For the first three quarters of 2017, market demand of the energy, chemical and liquid food equipment business of the Group improved with a year-on-year increase in number of orders by virtue of the recovery in the international oil prices and the gradual market improvement upon cutting overcapacity in the industry. For the period from January to September 2017, the energy, chemical and liquid food equipment business of the Group recorded revenue of RMB8,378 million (the corresponding period of last year: RMB6,581 million), representing a year-on-year increase of 27.31%. Considering the synergies on the existing business of CIMC Enric Investment Holdings Ltd. (“**CIMC Enric**”), a subsidiary of the Group, brought about by the business and assets of SinoPacific. In July of this year, CIMC Enric, through its subsidiary CIMC Enric Investment Holdings (Shenzhen) Ltd. (“**Enric Shenzhen**”), entered into the Restructuring Investment Agreement with Nantong SinoPacific Offshore & Engineering Co., Ltd. (“**SOE**”) and SOE Bankruptcy and Liquidation Team* (南通太平洋破產清算組). On 4 August, the SOE Restructuring Plan was approved at the creditors’ meeting as well as by the PRC Court. On 16 August, SOE has become an indirect subsidiary of CIMC Enric and an indirect non-wholly-owned subsidiary of the Group. SOE was renamed as “Nantong CIMC SinoPacific Offshore & Engineering Co., Ltd.*” (南通中集太平洋海洋工程有限公司). Based on the Repayment Capability Analysis provided by the receiver of SOE, CIMC Enric recognized a further impairment provision of approximately RMB106 million for the outstanding amount of the relevant financial aids to SOE for the first three quarters of this year, which did not materially and adversely affect the Group’s current financial position.

For the first three quarters of 2017, under the significant impact of the continued downturn in the industry and due to reasons such as the shrink in new orders acquired and postponed delivery of orders on hand, the offshore engineering business of the Group experienced significant decline, and recorded a revenue of RMB1,632 million for the period from January to September 2017 (the corresponding period of last year: RMB3,535 million), representing a year-on-year decrease of 53.84%. In respect of operating projects, the trial mining of combustible ice in the South China Sea by CIMC Raffles Blue Whale No.1* (藍鯨1號) achieved a significant breakthrough that drew worldwide attention, and the adaptability modifications under the Petrobras lease for the CR600 semi-submersible accommodation vessel project has been completed. In respect of projects under construction, the semi-submersible drilling platform Blue Whale No.2* (藍鯨2號) has successfully completed its sea trial and has entered the final stage of delivery, and the New Victory 5 jackup drilling platform has been delivered to Sinopec for assembly and construction. In respect of new orders, the marine ranching platform recently achieved a significant breakthrough, including 7 newly signed orders in August and 12 newly signed orders in September.

For the first three quarters of 2017, global economy moderately recovered, import and export in foreign trade grew rapidly and prices for logistics services rebounded, though still remaining at a low level in general. The Group’s logistics service business revitalises the assets and enhances asset efficiency in accordance with our “quality growth” principle, explores potentials of existing businesses, and enables the Group to complete the development blueprint for the “Belt and Road” and the “Yangtze River Economic Belt” initiatives in the future. For the period from January to September 2017, the Group’s logistics service business recorded sales revenue of RMB5,883 million (the corresponding period of last year: RMB4,946 million), representing a year-on-year increase of 18.96%.

For the first three quarters of 2017, benefitting from factors including the implementation of the new national standard GB1589-2016, regulations on vehicle overload, phasing out of yellow-label vehicles, as well as the proactive financial policies of the State, the domestic heavy truck market continued to deliver excellent performance. For the period from January to September 2017, the heavy truck business of the Group recorded sales revenue of RMB1,784 million (the corresponding period of last year: RMB1,110 million), representing a year-on-year increase of 60.66%; the Group achieved sales of 6,109 units (the corresponding period of last year: 3,839 units), representing a year-on-year increase of 59.13%.

For the first three quarters of 2017, the airport facilities equipment business of the Group recorded sales revenue of RMB1,928 million (the corresponding period of last year: RMB1,734 million), representing a year-on-year increase of 11.19%. Of which: the boarding bridge business and the automated logistics business steadily improved; two new shuttle bus models further meeting market demands were launched in the GSE (ground support equipment) business; integration of Albert Ziegler GmbH was accelerated; and the smart parking business (formerly the automated parking business) focused on developing the multi-storey public parking garage business and development in the Shenzhen market.

For the first three quarters of 2017, the real estate development business of the Group recorded sales revenue of RMB375 million (the corresponding period of last year: RMB429 million), representing a year-on-year decrease of 12.55%. In July of this year, Shenzhen CIMC Skyspace Real Estate Development Co., Ltd.* (深圳市中集產城發展集團有限公司) (“**CIMC Skyspace Real State**”), a non-wholly-owned subsidiary of the Company, introduced Country Garden Real Estate Group Co., Ltd.* (碧桂園地產集團有限公司) as a strategic investor by the way of capital increase; and in October of this year, the Group entered into the Land Preparation Framework Agreement with Urban Planning, Land & Resources Commission of Shenzhen Municipality* (深圳市規劃和國土資源委員會) and Authority of Qianhai Shenzhen-Hongkong Modern Service Industry Cooperation Zone of Shenzhen* (深圳市前海深港現代服務業合作區管理局) in respect of the land preparation issues of the Three Land Parcels of the Group located at Qianhai, Shenzhen and has commenced relevant assessments and planning.

For the first three quarters of 2017, the financial business of the Group recorded sales revenue of RMB1,735 million (the corresponding period of last year: RMB1,682 million), representing a year-on-year increase of 3.17%. A subsidiary of the Group, the Finance Company of the CIMC Group upholds the main business development of the Group, provides services to members of the Group, and has increased financial support focusing on industry demands, with total investment in financial services for the first three quarters of this year exceeding RMB8,600 million. In addition, it made full use of various financial instruments to directly enter interbank markets, assisting the Group in strengthening its capital liquidity management. Benefitting from the favourable industry environment, CIMC Financial Leasing Company will continue to deepen the coordination of industry and finance, increase its investment in energy, chemical, transportation, logistics and other markets, further optimizing its business layout and improving asset quality.

3.2.3 Progress of the Group in establishment of internal control in the reporting period

In the first three quarters of 2017, the Group made good progress in various important tasks managed internally: the Group (1) continued to progress the full coverage and upgrading of internal control construction; (2) focused on developing special audits to actively guard against risks; (3) promoted enhancement and complete implementation of the system to provide results for institutionalization of the Group; and (4) cultivated internal control talents by various ways. The Company published a special issue on environmental protection – “The information briefing on internal control”, and organized two terms of HSE (Health, Safety, Environment) Risk Control Leader training sessions.

3.2.4 Implementation of A Share(s) share option scheme in the reporting period

In order to establish and improve the incentive-constraint mechanism and effectively combine the interests of shareholders, the Company and its employees, a “Share Option Incentive Scheme (Draft) of China International Marine Containers (Group) Co., Ltd. (Revision)” (the “**A Share(s) Share Option Incentive Scheme**”) was considered and approved at the extraordinary general meeting of the Company on 17 September 2010. According to the scheme, the grant of registration for the first tranche of 54,000,000 share options (the “**First Tranche of Share Options**”) and the second tranche of 6,000,000 reserved share options (the “**Second Tranche of Share Options**”) was completed on 26 January 2011 and 17 November 2011, respectively, by the Company.

On 12 May 2015, upon the consideration and approval at the eighth meeting of the seventh session of the Board of the Company in 2015, the options of the second exercisable period for the First Tranche of Share Options met the exercise conditions and were actually exercisable from 2 June 2015 to 27 September 2020 with the total exercisable options amounting to 39,660,000. On 9 October 2015, upon the consideration and approval at the fourteenth meeting of the seventh session of the Board of the Company in 2015, the options of the second exercisable period for the Second Tranche of Share Options met the exercise conditions and were actually exercisable from 24 October 2015 to 27 September 2020 with the total exercisable options amounting to 4,132,500. On 20 July 2017, upon the consideration and approval at the eighth meeting of the eighth session of the Board of the Company in 2017, after the completion of the implementation of the 2016 dividend distribution proposal of the Company, the exercise price of the First Tranche of Share Options was adjusted to RMB10.49/per share option, and that of the Second Tranche of Share Options was adjusted to RMB16.02/per share option.

From July to September 2017, a total of 1,042,900 options were exercised under the A Share(s) Share Option Incentive Scheme, representing 1.78% of the total amount (adjusted), among which, a total of 930,200 options of the second exercisable period for the First Tranche of Share Options were exercised, and a total of 112,700 options of the second exercisable period for the Second Tranche of Share Options were exercised. The implementation of the A Share(s) Share Option Incentive Scheme has no material impact on the Company’s financial position and operating results during the reporting period and in the future.

Risk analysis and explanations on risk control measures for positions in derivatives during the reporting period (including but not limited to market risk, liquidity risk, credit risk, operation risk and legal risk etc.)	As of 31 March 2017, the derivative financial instruments held by the Group were mainly foreign exchange forwards, interest rate swap, currency swap and foreign exchange options contracts. The risks of interest rate swap contracts were closely related to the fluctuation of interest rates. The risks carried by foreign exchange forwards, currency swap and foreign exchange options were connected with the market risks relating to exchange rates and the Group's cash flow certainty of foreign currency revenues in the future. The Group's control measures on the derivative financial instruments was mainly reflected in: making prudent selection and decision on the type and quantity of newly-added derivative financial instruments; as to derivatives transactions, the Group developed rigorous internal approval systems and operational processes, and clarified the approval and authorisation procedures for all levels involved, so as to control the associated risks.
Changes in market prices or product fair values of derivatives invested during the reporting period, where specific methods and relevant assumptions and parameters used shall be disclosed in the analysis of fair values of derivatives	From January to September 2017, the Group's profit or loss arising from changes in fair values of the derivative financial instruments was RMB(59.683) thousand. Fair values of the derivative financial instruments of the Group were determined based on market price quotations from external financial institutions.
Explanations on any significant changes in the Company's accounting policies and specific accounting principles on derivatives for the reporting period as compared with those for the last reporting period	No
Specific opinions of independent directors on the derivatives investments and risk control of the Company	The Company invested in derivatives for the purpose of the day-to-day international business operations of the Company in order to smooth the fluctuation of the operations of the Company due to the change in exchange rates and interest rates. The effect of exchange rates and interest rates on the operations of the Company was reduced to such extent that it is acceptable and under control so the operations stabilised and improved, which ensured the long-term operating or strategic objectives were to be achieved. The Company had established sound and effective internal control systems as well as developed and continuously improved relevant management systems. The related decision-making procedures of the Company were optimised with risks under control in compliance with the requirements of the laws and regulations and without prejudice to the interests of the Company and the shareholders, in particular, the minority shareholders.
