3 SIGNIFICANT EVENTS

3.1 Changes in major financial data and financial indicators during the Reporting Period and the reasons

In the first quarter of 2018, the global economy sustained the recovery from last year. China's economic operations maintained stable and favourable momentum with improving quality and efficiency. However, in view of the global trade war initiated by the large-scale tariffs imposed by America, uncertainties remained in the recovery of global economy.

During the Reporting Period, the Group recorded revenue of RMB19,254 million (the same period of last year: RMB14,676 million), representing a year-on-year increase of 31.19%; net profit attributable to shareholders and other equity holders of the parent company of RMB446 million (the same period of last year: RMB510 million), representing a year-on-year decrease of 12.44%; and basic earnings per share of RMB0.1409 per share (the same period of last year: RMB0.1624 per share), representing a year-on-year decrease of 13.24%. During the Reporting Period, the revenue growth of the Group mainly came from the revenue growth of the container manufacturing business, the road transportation vehicles business and the energy, chemical and liquid food equipment business. However, as affected by factors such as the increase in exchange losses and the greater losses in offshore engineering business during the period, the net profit attributable to shareholders and other equity holders of the parent company decreased year on year.

In the first quarter of 2018, the fundamentals of the global economy remained strong. With the improvement in profitability of the container shipping industry, the elimination and upgrade of old containers also returned to normal. All these factors provided the customers with strong impetus for purchasing containers and sustained the strong order demand in the first quarter from last year. As a result, the sales and revenue of the containers manufacturing business of the Group both represented significant year-on-year increases during the Reporting Period. The total sales of dry containers reached 351,900 TEUs (the same period of last year: 291,900 TEUs), representing a year-on-year increase of 20.55%; and the total sales of reefer containers reached 41,400 TEUs (the same period of last year: 14,400 TEUs), representing a significant year-on-year increase of 187.50%. The container manufacturing business of the Group recorded sales revenue of RMB7,261 million (the same period of last year: RMB5,304 million), representing a year-on-year increase of 36.89%.

In the first quarter of 2018, by virtue of the GB1589 policy promulgated by the state in 2016 and the subsequent effect of the environmental inspection, the policies against overloading continued to be stringent. The market demand for car carriers was exceptionally strong, while the market for other semi-trailers was mediocre due to the seasonal factor in Lunar New Year. In respect of the international market, the North American market continued to maintain its stable growth. The demand in the emerging market was relatively stable but was dispersedly located. The European market picked up as a result of the economic recovery. During the Reporting Period, the road transportation vehicles business of the Group recorded total sales of 36,000 units (the same period of last year: 35,000 units), representing a slight year-on-year increase of 2.86%, achieving sales revenue of RMB4,720 million (the same period of last year: RMB4,130 million), representing a year-on-year increase of 14.27%.

In the first quarter of 2018, the market demand of the energy, chemical and liquid food equipment business of the Group improved by virtue of the increase in the international oil prices and the sound economic development in China, resulting in a year-on-year increase in number of orders. During the Reporting Period, the sales revenue of the energy, chemical and liquid food equipment business of the Group was RMB2,877 million (the same period of last year: RMB2,244 million), representing a year-on-year increase of 28.23%.

In the first quarter of 2018, the international oil prices increased. However, due to the sluggish offshore engineering market, the offshore engineering business of the Group recorded revenue of RMB303 million (the same period of last year: RMB483 million) during the Reporting Period, representing a year-on-year decrease of 37.35%. With respect to construction, the CR600 accommodation vessel designed and constructed with completely independent intellectual property rights completed upgrading and modification, and went to Brazilian waters for the implementation of Petrobras lease. With respect to new orders, the new order for FPSO (floating production storage and offloading) unit commenced construction at the end of March this year. The contract of Norway's Nordlaks deep sea breeding vessel with a contract amount of USD106 million became effective in February 2018. In addition, the contracts of an 800-passenger vessel and a marine ranching platform project with a total amount of RMB60 million also became effective.

In the first quarter of 2018, due to economic structural adjustments and traditional factors such as Lunar New Year long holiday, the domestic logistics demand was held back in the off-season. However, the logistics services business of the Group made active responses and adopted various measures to sustain a steady development. During the Reporting Period, the business recorded revenue of RMB1,957 million (the same period of last year: RMB1,655 million), representing a year-on-year increase of 18.22%.

In the first quarter of 2018, the infrastructure construction projects in various regions commenced one after another in China. The demand for heavy trucks was at its peak. Dump trucks and mixer trucks especially recorded excellent sales performance. During the Reporting Period, leveraging the user-friendly design, high-end configuration, stable performance and appropriate product planning, C&C Trucks Co., Ltd. under the Group recorded overall sales of 2,413 units (the same period of last year: 1,727 units) in the first quarter in spite of the overall shrinking demand for tractors in the market, representing a year-on-year increase of 39.72%, recorded revenue of RMB753 million (the same period of last year: RMB506 million), representing a year-on-year increase of 48.79%. At the same time, the heavy truck business put more effort into the independent research and development for designing. The electric wagons developed jointly with Zhuhai Yinlong Energy Co., Ltd. completed testing in Yantian Port, Shenzhen, gaining recognition from customers with bright market prospects.

In the first quarter of 2018, the airport facilities equipment business of the Group maintained stable growth. The research and development of the unmanned boarding bridges technology made progress in an orderly manner. With respect to the fire and rescue business, the Group was working on the construction of a factory in Croatia to reduce manufacturing costs. For the domestic market, the Group will focus on the development of the lifting market. By virtue of the acquisition of automated sorting and other key technologies, the automated logistics business improved its integrating capacity and obtained more large orders. With respect to the smart parking business, the experimental garage of the mechanical multi-storey public parking garages was the first to obtain certification in China and was expected to put into application at the end of this year or early next year. During the Reporting Period, the airport facilities equipment business of the Group recorded revenue of RMB569 million (the same period of last year: RMB491 million), representing a year-on-year increase of 15.73%. As at the date hereof, the transaction regarding the injection of the equity interest in Pteris into China Fire Safety Enterprise Group Limited ("CFE") by the Group was completed. CFE became a holding subsidiary of the Company. Pteris and Tianda became holding subsidiaries of CFE. The transaction provided an opportunity for the management of the airport facilities equipment business of the Group to give full play to the advantages in respect of management and control while integrating the core competitiveness of the key business such as airport and logistics facilities equipment, which is beneficial to the overall development of the airport business of the Group, creating better returns for investors.

In the first quarter of 2018, the industrial city development business of the Group recorded revenue of RMB63 million (the same period of last year: RMB111 million), representing a year-on-year decrease of 43.35%, mainly due to the decrease in the recognised income as a result of fewer real estate projects delivered during the period. During the Reporting Period, the Group succeeded in the delisting of the 0218-02 land lot in Unit 02, Meiluo Home Large Residential Community, Luodian Town, Baoshan District, Shanghai, and planned to commence construction in the second quarter. The preliminary development work of Qianhai project was included as one of the major construction projects of Shenzhen Qianhai Free Trade Zone in the first quarter of 2018. The fifth to eighth phases of the CIMC Intelligence Valley project in Dongguan fully commenced construction to seize the timing of inviting investment. CIMC Skyspace Real Estate Development Co., Ltd. (“**CIMC Skyspace Real Estate**”) under the Group cooperated with Shenzhen Tianan Huicheng Development Co., Ltd.* (深圳市天安慧城發展有限公司) to establish Shenzhen Tianji Industrial City Investment Development Co., Ltd.* (深圳市天集產城投資發展有限公司) for in-depth cooperation in the integrated development of industrial cities to develop quality projects. The cooperation with Country Garden was further deepened. The speed of project development is expected to be significantly increased with complementary advantages. In addition, CIMC Skyspace Real Estate entered into strategic cooperation agreements with the Dongcheng Sub-district in Dongguan, the People’s Government of Yangzhou City and the People’s Government of Dayi County, Chengdu during the Reporting Period, laying a solid foundation for the sustainable business development.

In the first quarter of 2018, the financial business of the Group recorded revenue of RMB515 million (the same period of last year: RMB544 million), representing a year-on-year slight decrease of 5.43%. During the Reporting Period, CIMC Finance Co., Ltd. focused on the business philosophy of “service, sharing, innovation and leapfrogging”, adhered to the industrial demand and based itself on its comprehensive financial services to establish a safe and reliable financial service sharing platform of the Group. In the first quarter, the Finance Company made additional financial investment of over RMB2,900 million, which provided capital support for industrial development under the increasingly tight capital in the market in general. Meanwhile, it formulated specialised financial service plans with respect to the characteristics of industrial development and actively expanded the credit business for buyers to enhance the comprehensive competitiveness of the Group in terms of industrial development. CIMC Financial Leasing Co., Ltd. continued to adhere to the strategic positioning of “the integration of industry and finance” to improve the quality of customer base, further strengthen risk management, optimise asset portfolio and gradually promote the establishment of the external financing system. In the first quarter, the investment in new business reached the budget target, achieving a stable opening.

3.2 Progress and impacts of significant events and the analysis of solutions

(1) Progress in establishment of internal control of the Group during the Reporting Period

In the first quarter of 2018, the Company continued to stick to its “risk control first” principle and focused on major risks to push forward the establishment of the risk control system and internal control and audit, including: (1) it identified five major aspects of risks of the Company (including HSE (Health Safety Environment) management risk, capital management risk, investment management risk, inefficient asset management risk and honest operation risk) through the questionnaire survey of core personnel and the review of the internal control and audit results in the past two years with reference to the external risk control and the requirements of the Board of the Company, and determined the core strategy of risk control in 2018 according to the concept of risk control first and key prevention of major risks. The strategy was reviewed and confirmed by the Board and was planned for implementation; (2) it completed the internal control evaluation for the member companies for 2017. The effectiveness of risk control was directly linked to the annual evaluation results; (3) it put more efforts in the establishment of the internal control system for overseas enterprises, and completed the internal control training for 2 overseas enterprises in the first quarter; (4) it continued to carry out term audit and special audit projects such as construction and procurement, intensified efforts in the cross-audit between enterprises and allocated more resources to foster internal control and audit personnel; (5) it finished the first draft of the accountability system for major issues and completed several rounds of evaluation and revision. It will promulgate the accountability system as soon as possible; (6) it completed the evaluation on the internal control and audit personnel for 2018, presenting the career path of professional development for the audit and internal control team of the Group; (7) it visited a number of outstanding conglomerates to learn the best risk control practice.

(2) Implementation of A Share(s) share option scheme during the Reporting Period

In order to establish and improve the incentive-constraint mechanism, and effectively combine the interests of the shareholders, the Company and its employees, an A Share(s) Share Option Incentive Scheme was considered and approved at the extraordinary general meeting of the Company on 17 September 2010. According to the scheme, the registration for the grant of the first tranche of 54,000,000 share options (the “**First Tranche of Share Options**”) and the second tranche of reservation of 6,000,000 share options (the “**Second Tranche of Share Options**”) was completed on 26 January 2011 and 17 November 2011, respectively by the Company.

On 12 May 2015, upon the consideration and approval at the eighth meeting of the seventh session of the Board in 2015, the options of the second exercisable period for the First Tranche of Share Options met the exercise conditions and were actually exercisable starting from 2 June 2015 to 27 September 2020 with the total exercisable options amounting to 39,660,000. On 9 October 2015, upon the consideration and approval at the fourteenth meeting of the seventh session of the Board in 2015, the options of the second exercisable period for the Second Tranche of Share Options met the exercise conditions and were actually exercisable starting from 24 October 2015 to 27 September 2020 with the total exercisable options amounting to 4,132,500. On 20 July 2017, upon the consideration at the eighth meeting of the eighth session of the Board in 2017, after the completion of the implementation of the 2016 dividend distribution proposal of the Company, the exercise price of the First Tranche of Share Options was adjusted to RMB10.49 per option, and that of the Second Tranche of Share Options was adjusted to RMB16.02 per option. For relevant information about the participants, the number of options and the price of options, please refer to the announcements of the Company (Announcement No.: [CIMC]2015-026, [CIMC]2015-027, [CIMC]2015-058, [CIMC]2015-059 and [CIMC]2017-042) published on China Securities Journal, Securities Times, Shanghai Securities News, the Cninfo website (www.cninfo.com.cn) and the Company's website (www.cimc.com) on 13 May 2015, 10 October 2015 and 21 July 2017, as well as the relevant announcements published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk).

During the Reporting Period, a total of 1,807,500 options were exercised under the A Share(s) Share Option Incentive Scheme, representing 3.09% of the total of share option incentive scheme (adjusted), among which, a total of 858,500 options were exercised for the First Tranche of Share Options, and a total of 949,000 options were exercised for the Second Tranche of Share Options. The implementation of A Share(s) Share Option Incentive Scheme has no material impact on the Company's financial conditions and results of operation during the Reporting Period and in the future.

(3) Significant events during and after the Reporting Period

- 1) On 15 January 2018, Ms. Yang Rong, the former general manager of the capital management department, resigned for personal reasons. Upon the consideration and approval at the first meeting of the eighth session of the Board of the Company in 2018, the Company consolidated the former financial management department and the capital management department, and appointed Mr. Zeng Han as the general manager of the consolidated financial management department. For relevant information, please refer to the announcements published by the Company (Announcement No.: [CIMC]2018-003 and [CIMC] 2018-004) on China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn) and the Company's website (www.cimc.com) on 15 January 2018, as well as the relevant announcements published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk).

Risk analysis and positions in derivatives during the Reporting Period and explanations of risk control measures (including but not limited to market risk, liquidity risk, credit risk, operation risk and law risk etc.)	As of 31 March 2018, the derivative financial instruments held by the Group were mainly foreign exchange forwards, interest rate swap, options and currency swap contracts. The risks of interest rate swap contracts were closely related to the fluctuations of interest rate. The risks carried by foreign exchange forwards were connected with the market risks relating to exchange rates and the Group's cash flow certainty of foreign currency revenues in the future. The Group's control on the derivative financial instruments was mainly reflected in: making prudent selection and determination on the type and quantity of newly-added derivative financial instruments; as to derivatives transactions, the Group developed rigorous internal approval systems and operational processes, and clarified the approval and authorisation procedures for all levels involved, so as to control the associated risks.
Changes in market prices or product fair values of derivatives invested during the Reporting Period, where specific methods and relevant assumptions and parameters used shall be disclosed in the analysis of fair values of derivatives	From January to March 2018, the Group's profit or loss arising from changes in fair values of the derivative financial instruments was RMB97,096,000. Fair values of the derivative financial instruments of the Group were determined based on market prices of external financial institutions.
Explanations of any significant changes in the Company's accounting policies and specific accounting principles on derivatives between the Reporting Period and the last reporting period	No
Specific opinions of independent directors on the derivatives investments and risk controls of the Company	The Company invested in exchange rate derivatives and interest rate derivatives for the purpose of the day-to-day international business operations of the Company in order to smooth the fluctuation of the operations of the Company due to the change in exchange rates and interest rates. The effect of exchange rates and interest rates on the operations of the Company was reduced to such extent that it is acceptable and under control so the operations stabilised and improved, which ensured the long-term operating or strategic objectives were to be achieved. The Company had developed rigorous internal approval systems and operational processes. The related decision-making procedures were optimised with risks under control in compliance with the requirements of the laws and regulations and without prejudice to the interests of the Company and the shareholders, in particular, the minority shareholders

3.10 Reason of change in accounting policies and correction of accounting errors

(1) Change in accounting policies relating to financial instruments

In 2017, the Ministry of Finance amended the Accounting Standards for Business Enterprises No. 22 – Recognition and Measurement of Financial Instruments, Accounting Standards for Business Enterprises No. 23 – Transfer of Financial Assets, Accounting Standards for Business Enterprises No. 24 – Hedge Accounting and Accounting Standards for Business Enterprises No. 37 – Presentation and Reporting of Financial Instrument (the “**New Standards for Financial Instruments**”). As an A-share and H-share listed company, upon the consideration and approval at the sixth meeting of the eighth session of the Board of the Company in 2018 on 27 March 2018, the Company has adopted the above new standards from 1 January 2018. The New Standards for Financial Instruments retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: (1) amortised cost; (2) fair value through other comprehensive income; and (3) fair value through profit or loss. Impairment of financial assets will be measured based on the “expected credit loss” method instead of “incurred loss” method. According to the transition requirements of the New Standards for Financial Instruments, the Group does not need to restate the comparative figures for the preceding period. The difference arising from the adoption of the new standards instead of old standards for the first day of adoption was adjusted and included in the retained earnings and other comprehensive income at the beginning of 2018.

(2) Change in accounting policies relating to revenue

In 2017, the Ministry of Finance amended the Accounting Standards for Business Enterprises No. 14 – Revenue (the “**New Standard for Revenue**”). As an A-share and H-share listed company, upon the consideration and approval at the sixth meeting of the eighth session of the Board of the Company in 2018 on 27 March 2018, the Company has adopted the standard from 1 January 2018. The New Standard for Revenue incorporates the prevailing revenue and construction contract standards into a unified revenue recognition model (five-step approach) under a principle of recognising revenue when the customers obtaining the control of the relevant goods or services. In addition, when goods (including properties) that produced to perform contracts and have no alternative use, and when the Group has a right to receive payment for performance completed to date, the Group recognises revenue as the performance obligations are satisfied over time in accordance with the input method for measuring progress. According to the transition requirements of the New Standards for Revenue, the Group does not need to restate the comparative figures for the preceding period. The accumulated affected amounts arising from the adoption of the new standards for the first day of adoption was adjusted and included in the retained earnings at the beginning of 2018.
